## Wolseley, GE Appliances Air & Water Solutions Bring New Line of Residential HVAC Systems to Canada

**BURLINGTON**, Ont. — Wolseley Canada and GE Appliances, a Haier company, Air & Water Solutions are teaming up to offer a comprehensive line of premium heating, ventilation, and air conditioning products in the Canadian market.

The new residential ducted HVAC line-up from GE Appliances Air & Water Solutions includes furnaces, air conditioners, air handlers, heat pumps, evaporator coils, and package units that offer the ultimate in-home comfort. The new products are now available at Wolseley Canada stores across Canada.

“With these new products, we are able to offer the best in residential HVAC solutions,” says Shawn Hulshof, Vice President, Category Management with Wolseley Canada. “Each of the products are state of the art and are designed to deliver optimal performance, whether we are in the midst of a swirling blizzard in January or the dog days of summer in a dry, hot August.”

Assembled in North America, all of the products in the lineup come with a ten-year warranty and are compatible with a conventional 24V thermostat.

“From inverter-driven heat pumps to high-efficiency gas furnaces, we’ve designed a complete and new residential HVAC line to reduce downtime for pros and energy bills for consumers,” says Mark Talma, Canadian Director for GE Appliances Air & Water Solutions. “Through Wolseley Canada’s national network of branches and strong relationships in the construction industry, we’re excited to roll out a new, dynamic option in residential HVAC.”

The gas furnace features:

- Insta-Position furnace technology
- Perfect fit coil flanges
- Silent ignition
- Smaller burners, mini-clamshell HX designed for quiet operation
- Lifetime heat exchanger warranty

The air conditioner and heat pump features:

- Proprietary aluminum alloy tube and fin coil technology
- All models compatible with standard TXVs
- High and low-pressure switches on all HP models
- All models compatible with conventional, 24V thermostats

The packaged unit features:

- Horizontal install ready; downflow convertible
- Total access service design
- 0" installation clearance\*
- 48" max width
