August 21, 2017

### Oshawa, Ont. HVAC/R branch relocates and expands to include plumbing products

**BURLINGTON, ONT.** – Today, Kevin Fullan, general manager, Wolseley Canada, plumbing and HVAC/R, Ontario and Atlantic, is pleased to announce the opening of the company’s consolidated plumbing and HVAC/R branch in Oshawa, Ont. Now that the branch has been relocated and expanded to include its plumbing offerings, contractors can source the products they need at one location. The new 13,500 sq. ft. branch is located at 345 Marwood Dr.

“We believe a combined plumbing and HVAC/R branch is beneficial for our customers because, quite simply, it’s more convenient for them to have all of the products in one place,” said Fullan. “We decided the best thing to do was move our standalone HVAC/R branch, which was on Wilson Road, to a much larger facility so we could add our plumbing line of products. We’re excited our doors are now open.”

Paul Duncan is the branch manager of the newly consolidated branch. For the last 32 years, Duncan had been the only manager of Oshawa’s original HVAC/R branch.

The Oshawa branch consolidation is part of a broader initiative to open new Wolseley branches in communities across Canada. Wolseley has recently opened new locations in Antigonish, N.S., Lachine and Laval, Que., and Concord, Ont.
